Officials authorised to sign for the Bank of Finland

All documents that are binding on the Bank of Finland must be signed by two Bank of Finland officials, one of whom must be an official on the list below. Authorization to sign is either based directly on the official's position or on a Bank of Finland decision.

In correspondence and agreements written in the national languages, the Bank of Finland's name should be written as Suomen Pankki in Finnish or Finlands Bank in Swedish. When signing letters and official documents written in other languages, an established translation such as Bank of Finland may be used.
