Reporter Portal of the Banks of Finland's new Reporting System has been opened

The Reporter Portal of the Bank of Finland's new Reporting System has been opened for production reporting.

Access authorisations for the new Reporting System will operate via the Suomi.fi e-Authorisations service, and reporters will manage the access authorisations themselves. Reporters must have access authorisations, which the reporting entity has granted to them in the Suomi.fi service, before logging in to the Reporter Portal for the first time. The Bank of Finland (BoF) has published instructions on access authorisations for the Reporting System. In addition, the Suomi.fi e-Authorisations service provides its own instructions and support for using the service.

Reporting obligations have been added to the Reporter Portal for the entities that reports the following data collections:

- MURA (Other financial institutions data collection)
- TIHA (Survey of deposit banks and investment firms providing custody and asset management services)
- SIRA (Investment fund balance sheet statistics)
- MAPE (Collection of payment and fraud data, H-reporting)
- LUOTI (Credit data collection)

The user instructions have been published on the BoF's website: Reporter portal guide

The Reporter portal can be accessed via the following web address: https://reporting.bof.fi

The above-mentioned data collections will be reported via the BoF's Reporter Portal according to the previously announced schedule, starting with the following reporting periods: MURA 2024Q4, TIHA 2024M12, SIRA 2024M12, MAPE H1-2 (tail reporters), MAPE H2 (full reporters), LUOTI M12/Q4.

More information

- Known issues in the reporter portal
- For further information on the reform of the reporting system, see the BoF's website.
- BoF's instructions on <u>access authorisations</u> for the Reporting System.
